What is SBCS E-Learning (Moodle)?

SBCS E-Learning is an Open Source Course Management System (CMS), also known as a Learning Management System (LMS) or a Virtual Learning Environment (VLE). The main aspect of SBCS E-Learning is to improve and facilitate the interaction between Students and Lecturers. The CMS will provide an interface in which students can access course material, as well as interact with other members of their respective class.

Process of a SBCS E-Learning (Moodle) Course:

Students will be added to SBCS E-Learning (Moodle) a day before classes commence and will be automatically unenrolled at the end of the Examination Period.

NB: Lecturers will inform students on the first session of the semester as to whether your course is on the platform.

Benefits of SBCS E-Learning to Students

- ▶ Students no longer have to Search emails for slides, URLs, additional resources
